

# Technical Warehouse Management Consultants

Remuneration c. £40 - 55,000

UK Wide

REPL is a successful technology consultancy that delivers quantifiable benefits to FTSE 100 clients by developing strategy, selecting solutions and managing change. Specialising in the retail sector, our practice areas involve project management and implementation in workforce management, supply chain, POS and warehouse systems.

Our warehouse management solutions consultants participate in full-lifecycle projects and specialise in requirements analysis, technical design, custom application development and project management. The practice is growing fast and we are interested in hearing from IT professionals who have practical experience of IT within supply chain and warehouse environments.

## *The Challenge*

- To work closely with retail clients to deliver complex technical solutions and software functionality that meets clients' needs.
- To deliver software solutions within scope, to budget and to REPL quality standards.
- To assist and support clients implement change management during a challenging period.
- To ensure timely handover of projects to the client with all relevant data and documentation.

## *The Candidate*

- In-depth knowledge of the retail industry and warehouse management systems.
- Good technical knowledge of C, Java and Oracle/SQL.
- Practical experience of systems integration gained either a respected management consultancy or a software vendor or internally with a large retail organisation.
- Our clients could be based anywhere in the UK or overseas so you must be able to work away from home.

REPL have aggressive development plans so this is a great chance to join a young firm at a relatively early stage. If you have a passion to influence the direction of £multi-million projects and develop your career skills ring Robin McWilliams, our Head of Recruitment, on 0844 752 0027 for an informal discussion or write to him, attaching your CV, at [robin.mcwilliams@replconsulting.com](mailto:robin.mcwilliams@replconsulting.com).

To apply for this position, candidates must be eligible to live and work in the UK.
